DATA7001-UQ-S1-2023 Project Groups Questionnaire

Due time: 16:00 of Wed in Week 04. Please read the notes on the next page before filling the form.

Full Name: _Yifan Zhang_

UQ Student ID (MUST start with s followed by 7 digits): _S4686474_

UQ Email e.g. you student id @student.uq.edu.au: _yifan.zhang19@uq.net.au_

Below please circle the number you select for each question.

(1) Problem solving and Organisation:

1   2   3   **(4)**   5   6

(2) Verbal/Written (English) communication:

1   2   **(3)**   4   5   6

(3) Programming:

1   **(2)**   3   4   5   6

(4) Mathematics:

1   2   3   **(4)**   5   6

Please make sure that the sum of the points specified above is 12.

☑ I have checked that the sum of the points specified above is 12.

(Optional) If you have any particular requests or issues we should be aware of, please let us know:

_____

_____

_____

_____

_____

Notes:

Use this form to specify how you believe your strengths distribute over:

1. Problem solving and Organisation (e.g. problem solving, solving logistical issues, setup meetings, assign tasks, facilitate collaboration)
2. Verbal/Written (English) communication (experience in verbal presentation or written reports)
3. Programming (including scripting, database usage, and file manipulation)
4. Mathematics (including statistical analysis, usage of formulas and algorithms, e.g. variance, integral, vector distance, matrix operations)

You have 12 points in total. Distribute these 12 points over the categories above. Each category can receive anything in the range of {1,2,3,4,5,6} points. The total sum of points needs to be 12.

For example, one possible answer for a person that has little experience in English communication and has only programmed a bit can be:

1. Problem solving and Organisation = 2 points
2. Verbal/Written (English) communication = 2 point
3. Programming = 3 points
4. Mathematics =5 points

Observe that the sum of the points is 12.

Alternatively a person that has little programming and mathematics experience, but perhaps has management experience may choose something like:

1. Problem solving and Organisation = 4 points
2. Verbal/Written (English) communication = 6 points
3. Programming = 1 point
4. Mathematics =1 point

Clearly there are many possible answers.

Take some time to think about your strengths and then submit the form. Your submission will not be shared with other students. The teaching staff will use your submission to form groups that cover all categories.

If you have multiple submissions (hopefully not the case), we'll consider the last submission before the submission deadline.
